SOFTWARE SCREENSHOTS

This graphic illustrates the Enterprise software ecosystem. At the top center is the 'enterprise' logo. Below it, five circular icons represent key business functions: Accounting (piggy bank), Reporting & Automation (line graph), Ecommerce (shopping bag), CRM (globe), and Inventory (warehouse). Dotted lines connect these icons to a central laptop screen. The laptop screen displays the 'Item Reordering' interface, which includes a navigation menu on the left with 'Purchasing' selected, a top navigation bar with 'Orders' and 'Item Reordering' tabs, and a main content area with a 'New Item Reordering' form and 'Cancel' and 'Create Order' buttons. The background is a solid purple-to-pink gradient.

The banking dashboard features several panels:

- Bank Transactions:** A list of transactions with columns for amount, date, and description.
- Bank Balance:** A line chart showing the balance over time.
- Bank Reports:** A section for generating reports, currently showing a loading spinner.
- Average Exchange Rate:** A table showing exchange rates for various currencies.

The sales dashboard includes the following components:

- Sales Revenue:** A line chart showing revenue over time.
- Sales KPI:** A summary of key performance indicators with numerical values.
- Sales by product group:** A bar chart showing sales for different product categories.
- My activities:** A section for tracking user activities, including a notification about a pending holiday.
- Reports:** A section for accessing various reports and analytics.
