

SPIRO

EXTENDED PROFILE

OVERVIEW

Spiro is an AI-Powered CRM for sales teams at mid-enterprise B2B companies.

Spiro automatically creates contacts, organizes and prioritizes opportunities, and proactively recommends the next steps to move all your team's deals forward. Spiro takes the work out of sales and provides managers with intelligent sales reports that help turn their sales team into a sales machine.

Spiro's AI-Powered CRM learns your sales process to increase sales team effectiveness and deliver more accurate business insights. It works as your assistant to create contacts and reminders, or update you on your team's progress. Spiro CRM guides your sales team through the sales process for maximum effectiveness, but it also eliminates data entry for your sales team.
